

KT-61169 Tri-Rail Barrel Mount Adapter w/Rail Mount Kit

MT61168 Tri-Rail Barrel Mount Adapter Installation:

1. Clamp the MT61168 around your barrel at the desired position. Choose the appropriate length screws and fasten to barrel.

MT61167 Rail Mount Adapter Installation:

1. Remove the battery cap from the laser sight/flashlight you wish to install. Loosen the two outer screws on the Rail Mount and loosen the middle screw until the laser sight/flashlight is able to slide into the mount. For certain laser sights, be sure to line up the line on the mount with the mark on the sight so you will not have to realign the laser again later.
2. Tighten the middle screw to secure laser sight/flashlight. Replace the battery and battery cap.
3. Mount the laser sight/flashlight onto your rail by removing the screw that is offset to the top, and sliding the mount onto the rail. Reinstall the screws and tighten the two outer screws.

The MT61167 Rail Mount is compatible with the following AimSHOT products:

LS8100 Green Laser Sight
LS8200 Green Laser Sight
LS8300 Green Laser Sight
Ls6832 Ultrabrite Laser Sight
All TX Series LED and Xenon Illuminator Flashlight
